LORRAINE'S PILLS, OR VEGETABLE UNIVERSAL MEDICINE CURATIVE

French College of Health, in Paris.
The following letter was received yesterday by mail from Salem. It gives another evidence of the great success of Lorraine's Vegetable Universal Pills.

Sir—I have been for many years a sufferer from the ravages of Scrophula and Cancerous Humors, which at last seated on the vitals, and exhibited all the threatening symptoms of consumption. The general inability of all remedies awakened my enquiries as to the thousand different methods of cure, to most of which I had recourse, without receiving benefit. I accidentally noticed a remarkable cure by Lorraine's Pills, and was induced to give them a trial. I sent to Boston and got a box. By the use of them I found immediate relief and was soon restored to a perfect state of health.

J. E. NEWHALL.
Salem, 21st May, 1841.

The following letter from J. B. Light, Esq. is worthy of notice.

Sir—It took one of Lorraine's Vegetable Pills last evening for a pain in my head, that had effected me for several days, occasioned by taking cold. I soon felt very calm, and quiet, and a state of general repose came on, which had great charms, and I enjoyed one of the most comfortable and refreshing nights rest that I ever did in my life. I rose in the morning in my usual state of health, and believe it is my duty to recommend this medicine.

Yours truly,
J. B. LIGHT.
Nov. 20th, 1841.

[From Boston Daily Mail.]
Somebody wisely says, that a cap loaded with jewels and flowers will not cure the headache, nor gold chains prevent the consumption. Lorraine's Vegetable Pills have done both.

Sir—I have been effectually cured of a severe headache by the use of Lorraine's Pills.

SARAH NOYES.

Sir—My daughter had all the threatening symptoms of a Consumption, such as cough, pain in the side, &c., together with general debility, but has had her health restored by Lorraine's Pills.

Rev. J. KNIGHT.
New York City, Nov. 1, 1841.

Family Medicine.
Sir—I have used Lorraine's Pills in my family as a family medicine, and I would most earnestly recommend them to all persons, as the best medicine that can be procured. I would not be without them—they operate mildly, and never fail to give immediate relief. Until I used these Pills I was obliged to pay from 2 to 25 to \$100 per year for medicines and physicians; since then I have had no other doctor than Dr. Lorraine's Pills.

Lame Back.
Sarah Snow was cured of a lame back in one day, when she had been unable to dress herself alone for two weeks.

Susan Jones of Boston, cured in 36 hours of lame back and side of three weeks standing.

Sick Headache.

Mrs. Bird of Providence says, that 'Lorraine's Pills have proved a real blessing to her. It has surpassed any thing that has been brought to the public notice. I have been cured of a sick headache that had afflicted me for years, by the use of Lorraine's Pills.

THE CONDITION.

The condition upon which nature gives health to man, is a watchful care to keep his stomach and bowels free from morbid and unhealthy accumulations. Lorraine's Pills admirably effect this, because they cleanse the bowels and purify the blood.

The human body is always healthy when the bowels are regular, the blood circulates freely, and disease invariably commences when obstructions take place in the bowels.

The extraordinary virtues of Lorraine's Pills depends upon extracts of over 50 different vegetables, all so admirably combined as to purify, nourish and invigorate the human system.

CONSUMPTION

AND

LIVER COMPLAINTS

THE TAYLOR'S BALM OF LIVERWORT.

This fine remedy is growing more and more popular, every day some grateful person that has been cured by this medicine, calls at the office 375 Bowery, and expresses their gratitude, giving us the privilege to refer all those who do not already know its curative powers, to them.

Invalids suffering with pain in the chest and side, shortness of breath, raising of blood, and all diseases of

CHEST, LUNGS AND LIVER

will find this a sovereign balm. So numerous are the certificates received and so many already have been published that we thought it unnecessary to publish them now. Call at the office and see for yourselves.

Counterfeits are issued in every direction. No person of any one unless you have confidence and know that it comes from the original and only manufactory of the genuine, 375 Bowery.

TAKE NOTICE that Counterfeiters have imitated the wrapper, labels, and outward look of the medicine, so that there is no dependence to be placed on it except by those who are acquainted with the signature. If you wish the genuine, buy ONLY in this city at the office 375 Bowery, between 4th and 5th streets, and in Bangor only of G. W. LADD, Druggist.

NOTICE TO FORECLOSE MORTGAGES.

I, SAMUEL LOWDER, the subscriber of Bangor, hereby give public notice of my claim by mortgages, made by the several persons hereinafter named, to me on certain parcels of real estate, situated in the towns of Orono and Hermon, in the County of Penobscot and State of Maine, which mortgages bear date and are recorded with Penobscot Records as severally stated below, and to which record and to R. Gilmore's plan of Hermon, and to J. Gilman's plan of Lower & Parks' purchase in Orono, all persons interested are referred for a more full description of the premises, to wit:

Hugh Curran's mortgage of lot numbered 20 and part of lot No. 48 in Orono, dated March 14, 1839, recorded Book 107, page 248.

Henry Warren's mortgage of lot numbered 97 in Orono, dated October 19, 1839, recorded Volume 111, page 437.

James Taylor, Jr.'s, mortgage of lot numbered 253 in Hermon, dated March 4, 1840, recorded Vol. 113, page 559.

Thomas Goodspeed's mortgage of lot numbered 204 on the Billings road, dated Nov. 10, 1838, recorded Vol. 103, page 560.

The conditions of which said several mortgages having been broken, I, by reason thereof claim to foreclose the same.

KOLMSTOCK'S VERMIFUGE.

THIS remedy for worms is one of the most extraordinary ever used. It effectually eradicates worms of all sorts, from children and adults.

THOUSANDS perish by worms without the real cause being known. Some other reason is assigned for their sickness, until too late to cure the real cause.

What immense responsibility then rests upon the parent who does not know, and the doctor who does not understand, the complaint which is destroying those precious flowers of life—children.

What should be done?

The answer is plain. Give this vermifuge, which will be sure to do good, if they have no worms; and if they have, it will destroy and eradicate them with a certainty and precision truly astonishing.

It cannot harm the smallest infant or the strongest adult. There is no mercury or mineral in it. Mercury is the basis of most worm remedies; and the remedy is sometimes worse than the disease. So never use lozenges, but rely upon this. Every person will be convinced on one trial, that it is the most perfect cure ever invented.

The immense sale of this vermifuge has, is a sure test of its value and the estimation in which it is held by families. It would be quite too expensive to publish the volumes of certificates that have been given for this article, and the users of it are requested to spread the name to all persons whom they think may be benefited by it.

Speak of it in all families, and you will do your duty to your fellow creatures, and feel assured of the approbation of all good men, and will receive your reward in heaven.

We call on all good citizens to make known the effects of this wonderful remedy.

Remember and ask for Kolmstock's Vermifuge, though Fahnstock's is supposed to be the same article: the one that has become known to you through the advertisement should be used, in justice to the proprietors.

ASSIGNEE'S SALE.

IN BANKRUPTCY.

BY virtue of a License from the Hon. Judge of the United States District Court for Maine District, the undersigned Assignee of the Estate of Nicholas G. Norcross in Bankruptcy, will sell on the SECOND day of August next, at the office of J. A. & H. V. POOR in Bangor, to the person offering the highest sum therefor respectively, certain parcels of real estate belonging to said Norcross's Estate, viz:

Part of No. 96 Holland's plan of Bangor, containing about 56 acres, lying between the Webster farm and Hadlock farm, near Barkerville, together with the notes and bond of James P. Crocker, of New York city, endorsed and guaranteed by E. F. Howard for \$13,278.00, secured by a mortgage of said lot, given for the balance of the purchase money, May 25, 1836, with interest from said date. Said lot was sold for about \$15,000 at said time. It is laid out into building lots, has a good soil, and is very valuable for a farm if the purchaser so desires.

One half of 50 rods of shore in Edgington above the Mill Dam Company Mills, purchased of Stephen Grant by deed recorded in Penobscot Registry, Book 54, page 268.

One half of 50 rods of shore, bought of Benjamin Grant, deed recorded in Book 54, page 265.

An undivided sixth part of township No. 7, range 3, partly in the County of Penobscot and partly in the County of Washington, conveyed by deed of Wm. Ingalls, recorded in Penobscot Records, Book 60, page 328.

50 acres of land in Monson as the same was conveyed by the mortgage of Samuel Girrell, April 8, 1834, being lot No. 6 on the plan of Alexander Greenwood in 1811, with the mortgage note.

The Grant House so called at Oldtown, being the premises conveyed by Augustus Peabody to Norcross & Alston, Nov. 24, 1834, deed by Thomas J. Grant in mortgage October 23, 1837, to secure the sum of \$2,500.00, by deed recorded in Penobscot Records, Book 94, page 193, now occupied by said Grant, together with the notes secured by said mortgage. (Henry Rice claims the premises by Levy of Execution thereon.)

Lot No. 70 in township No. 4, Indian Purchase, 200 acres granted to Mary Strout, Feb. 10, 1837.

Lot No. 72 in township No. 8, range 3, 200 acres granted to Sarah Fisher, Oct. 9, 1838.

Lot and house near Penobscot Mill Dam, being same described in Thomas Norcross's mortgage to Wm. Thompson, dated Dec. 3, 1834, recorded in Penobscot Records, Book 61, page 73, said mortgage being assigned by Thompson. Also Thomas Norcross's mortgage of same lot, dated Sept. 13, 1836, to secure note of \$503.04.

Persons desirous of purchasing the Assignee's title to any one or more of said parcels of land, will please furnish him sealed proposals therefor in writing, naming the bid for each parcel separately, on or before August 1, 1843. On the 2d day of August 1843, he will sell and convey each parcel to the highest bidder without reserve, for cash. The proposals must in each case be sealed and will not be opened till the time named.

Information in relation to said lands can be had by calling on the Assignee.

market for his grain, more beneficial to him than our own. Our operatives, if not destroyed by the reduction of the Tariff, will consume, as they have hitherto done, the surplus of this valuable staple; and as their numbers increase under the increasing operation of our present protective duties, their consumption of this article will increase with it. It will not bear transportation to England, until it has undergone the process of kiln-drying; & Englishmen have told us already, that they prefer any kind of bread to that made of our "perished corn." The people on this side of the water can alone enjoy to the fullest extent the blessings which Providence has, in this particular, conferred upon us. At this moment, our manufacturers are sending large quantities of American cotton goods into the English market, in spite of the enormous duties which England has established to protect her own operatives against the effects of American competition. We are, at the same time, successfully competing for the markets of other countries, which England formerly occupied, to the exclusion of all the rest of the world. Let the good work go on. Let us play out the play that we have so successfully begun. Our Tariff is growing popular in every part of our country. Every prediction which Mr. Webster made in his great anti-tariff speech in the House of Representatives in the year 1824, foretelling disasters to us as a nation, from the adoption of the protective policy, has been contradicted by an actual experience of its benefits; while, on the other hand, the most sanguine expectations held out to his countrymen by Mr. Clay, in his much greater speech, made in the same place, on the same occasion, in opposition to Mr. Webster, and in behalf of the American laborer, have been realized and confirmed to the very letter. In justice to Mr. Webster, we must remember that he was originally an opponent of the Protective System; that he opposed it in 1816, in his speech at Faneuil Hall in 1820; and again in 1824, as I have stated; and that when reproached by Mr. Hayne, in the debate on Foot's Resolution, in 1830, for the inconsistency of his vote in favor of the Tariff of 1823, he openly acknowledged "that as an original question, the authority of Congress to exercise the revenue power, with direct reference to the protection of manufacturers, was a questionable authority, far more questionable, in his judgment, than the power of Internal Improvements." He did not deny that he had opposed the Tariff on Constitutional grounds. And, if it be true, as some have alleged of him, that he is about to go over to the support of Mr. Calhoun, he may think himself justified for his desertion of the Protective Policy, and his adherence to the principles of free trade, by pleading that he is only returning to his first love.

DAILY WHIG AND COURIER.

JOHN S. SAYWARD, Editor.

THURSDAY, JULY 13, 1843.

FOR PRESIDENT,
HENRY CLAY,
OF KENTUCKY.

SEE FIRST PAGE.

We learn that the worthy, faithful and competent Post Master at Houlton, John F. Hall, than whom a more conscientious man does not live, and who has discharged the duties of his office with scrupulous exactness and impartiality, has been removed and one Peirce, a rabid loco and former Custom House officer in that town under Van Buren, has been appointed in his place. No notice was given until the commission to this Peirce arrived at Houlton. The people at Houlton, of all parties, are displeased and cannot understand by what *becus pocus* this new development of Tylerism was effected. We hope soon to have particulars.

We clip the following forcible picture of England from a long article in the New York Sun:—The dominions of Great Britain belt the world; they are so vast that night cannot cover them at once with its mantle; but in the centre of this circle stands BRITISH LABOR, his arms outstretched from east to west, his shoulders bowed, every muscle rigid with extensive tension, his cheeks haggard with privation; his mighty limbs and Atlas frame half clothed in equal rags; bearing up the enormous and constantly accumulating burthen, with royalty, the incubus of nobility and church hierarchy superadded barely food for his guerdon, and no hope of future relaxation to lighten the pains of present endurance.

The branch track of the rail road has been removed from Exchange street by order of the City Council. We learn that the owners of the road will not probably continue the track to Oldtown, but rip it up and sell it out by piecemeal. By means of the branch track in Exchange-st. the road has been paying the present proprietors about four thousand dollars a year, but with this advantage taken away it is supposed the receipts will be considerably less.

We cannot but hope that some disposition may be made of this road: that shall secure its continuance, for it is not only a convenience to the public, but the reputation of our city will be injuriously affected should it be abandoned.

The Saco Democrat states that on the 5th of July a man calling himself Thomas H. Wilson, committed suicide in the jail at Alfred. The deceased was about twenty two years of age, and professed to be an Englishman; had a wallet about his person on which is written "George Moneck" or "Monock," containing several pieces of paper, on one of which is written "Miss Claraetta Field—Frankfort, blacks P. O. Me" containing a small lock of hair. On another "Mrs. Field—Frankfort"—also a two dollar bill on the Citizens Bank, Augusta. He informed the jailer that he had friends in New York.

We have been trying a new article of blacking called the Washingtonian Oil Polish Blacking, manufactured by William Peels at Salem, Massachusetts, and for sale in this city by Henry J. Flagg at his shoe store, and by G. W. Ladd at his medicine store. The trial we have made of this article is very satisfactory. It is a good article and sold at a reasonable price.

More of the Hail Storm.

The Portland Advertiser states that on Saturday last there was a severe hail storm at Limerick. The hail stones were an inch in diameter and not a house in the town escaped losing a portion of the glass and some of them as many as two hundred panes.

The crops were much mangled and injured. In Buxton, the crops are reported as entirely destroyed—much glass broken and the violence of the storm and the sharpness of the hail cut and lacerated the faces and hands of those exposed to their violence.

Important from Mexico.—An armistice with Mexico.

President Houston has issued his Proclamation announcing that an armistice has been concluded between Texas and Mexico, to continue during the pendency of the negotiations between the two countries for peace.

The propositions from Santa Anna for the armistice were brought to Galveston by the British brig Scylla, which arrived there on the 9th ult.

A French brig from Havre has arrived at Galveston, having on board 100 emigrants from France. They are a part of the colonists sent out to Bexar by Mr. Castro.

Shipwreck and Loss of Lives.

The schooner Independence, owned and commanded by Capt. J. Arey, of Frankfort, on the morning of the 5th inst. on her passage from Boston to Frankfort, in thick weather, was wrecked on Pumpkin rock off Damescove island, and the vessel and cargo were a total loss. We regret to learn that Capt. Arey, one of the oldest and most respected ship masters on our river, was drowned, and also one of the crew named Orcutt, of Bucksport. Capt. Arey has left a large family and an extensive circle of friends to mourn his loss.

One of the crew, a Mr. Harvey of Frankfort, remained upon the rock two days, when he made a raft of some deck plank and succeeded in reaching an island where he obtained assistance and has returned home.

The cargo of the schooner consisted of goods belonging to Messrs. Arey & Clark, of Frankfort, and to Capt. Arey. There was no insurance upon either vessel or cargo.

From Valparaiso.

Capt Post, who came passenger in the Chile, which arrived on Sunday from Valparaiso, April 21, informs the Merchants' Exchange that Mr. Pendleton, our efficient Minister at Chili, had obtained indemnity of the Government to the amount of \$200,000 for the American claims, for property destroyed, &c. The first instalment is already on its way to the United States. Thomas H. Perkins, Esq. of Boston holds the largest claims.

Mr. Roberts, at Bowdoinham, had both of his hands and one of his arms blown off, and also his right side severely lacerated, by the premature explosion of a cannon, which he was engaged in loading on the morning of the 4th inst. But little hopes were entertained, at the last accounts, of his recovery.

The funeral of Hon. John Holmes was attended in Portland by the Judges of the Courts and members of the Bar, the city authorities, a large number of citizens, and procession of free masons who performed the funeral ceremonies of their order at the grave of their deceased brother.

The Gazette states that Baxter Crowell, Esq., of Canaan, committed suicide by hanging himself on Monday morning. Mr. Crowell was advanced in age and possessed of a large property. He has labored under a depression of mind for some time and been narrowly watched lest he should put an end to his earthly existence.

At the Lincoln County Convention at Wiscasset a resolution was adopted in opposition to the action of the State Convention relation to Mr. Van Buren. This with other indications may be taken as an evidence of the waning popularity in Mr. Van Buren in Maine, and also of the weakened power of the political leaders.

Mankind are often disposed to waste a thousand vain regrets over the loved & lost, that they were not more dearly cherished while living. Such reflections should teach them to cherish more closely those friends that remain, for soon they too may go hence to be here no more.

The Albany Daily Advertiser states that thirty buildings had been consumed at Lansingburgh in the neighborhood of Parmless factory, and that the fire was raging at the last accounts and a much more destructive conflagration expected.

It is reported that Joe Smith has been arrested and imprisoned and that the Nauvoo legion were in high dudgeon and threaten to rescue him. Two hundred horsemen and 150 in a steamboat were on their way to Ottawa to make the attempt.

A Repeal Association was organized in Albany on the evening of the 5th inst. That the friends of Ireland in that city have not been inactive heretofore, is proved by the fact that they transmitted \$500 to the Repeal Association of Dublin by the last steamer from Boston.

The Portland Advertiser says that a barn and workshop belonging to Mr. John Keniston, of Whiting, was destroyed by fire on Sunday night, with all their contents. The loss is estimated at four hundred dollars.

An editor and printer down South offers to sell his whole establishment for a clean shirt and a meal of victuals. He says he has lived on promises till his very whiskers have stopped growing.

The Huntress arrived yesterday forenoon at a few minutes past ten o'clock.

The whole number of schools in Bangor is 30. They may be considered as divided into four classes. First 8 Infant Schools—Second, 8 Primary—Third, 2 Schools, one mostly and the other wholly for boys, and 2 Select Schools for girls—Fourth, 2 High Schools, one for boys and the other for girls. There are 8 Schools in the outports of the city that are not classified. The whole yearly cost beside the first cost of houses is about \$7000. The classification has been effected during the last four or five years. The Schools of the two highest grades, with one exception are taught by Masters. The others, 25 in number, are taught by females, except that in several of the unclassified, masters are employed in the winter season. More large boys attend school in the winter and at that season another school of the third grade is added which has been called the Apprentices' School. The Infant and Primary Schools are so arranged in most cases that one Infant and one Primary School are in the same building or an adjoining one. The two High Schools and one of the Select Schools for girls are filled by examination of those who offer themselves for admission twice a year. The other schools of the third grade are filled at the same time from the first classes of the Primary and the Primary from the first classes of the Infant Schools.

The above statement of the grades of schools is made in order to give the best general view of the subject, but is not strictly accurate as much as one of the Select Schools for girls is in advance, or has no corresponding grade in the schools for boys.

Does this classification increase the expense? On the one hand five schools cost us more than any five otherwise would. On the other hand all the teachers can class their pupils better and consequently attend to more, and a greater number of male teachers in the winter would otherwise be wanted. On the whole it is probably true that the cost is increased.

Is the classification useful? Yes, to an unexpected extent. To an extent equal to two years progress of each child. Our pupils at twelve are as far advanced as before its adoption at fourteen. The life, order and energy resulting from it are so strongly marked that no doubt difference exists among those who have had the means of forming an opinion on the subject.

Murders on the African Coast.

We learn from the Salem Register that the mate of the schooner Edward Burley, Mr. Henry G. Glading, of Salem, and John Freeman, the cook, were murdered by the natives at a place called Blue Barbara, on the African coast, on the 24th of March last. Information subsequently received by the Captain of the Edward Burley, led him to believe that the natives had formed a plan to murder all the crew, and take possession of the schooner. On the 2d of May, Capt. Burke fell in with the U. S. brig Porpoise, and communicated the circumstances to her commander, who promised to look into the matter. The place where this affair happened is near where the Mary Carver, of Plymouth was cut off and her crew massacred, two or three years since. The natives are said to be a fierce, cannibal-like race, and well fitted for treachery of this kind.

Flora of Bangor.

A DESCRIPTION OF THE PLANTS OF BANGOR AND ITS VICINITY, WITH THEIR GENERIC AND SPECIFIC CHARACTERS, PLACES OF GROWTH AND TIME OF FLOWERING.

BY AARON YOUNG, JR.

Number 13.

Description of Plants.

Ericae.

RHODODENDRON* MAXIMUM. Linn. American Rose Bay. Dwarf Rose Bay. The State of N. York and Dedham, Mass., have long been considered the most northerly limits where this elegant shrub ceases to be found in the forest; and although it may more particularly belong to the Middle States and in the upper parts of the mountainous tracts of the Southern States, where it forms impenetrable thickets in the vicinity of cool and crystal waters flowing among rocks, where the atmosphere is laden with vapor, and where shade and humidity seem indispensable to its growth,—yet within a few years a locality in the heart of our State has been opened at Standish on the northern shore of Sebago Lake, which having visited about three years since, a brief description will not be uninteresting.

The shore of the lake at this locality presents a richness of appearance so obviously noticed by the visitor as to excite no small degree of pleasure and fondness in making it a fashionable place of resort. The beautiful white, crystalline, sandy shore, the wide sheet of water meandering amid the forest and decorated with verdant isles, the shrubbery, the freshness and redolency of the air are but few of the natural enchantments, while receding a few rods from the shore and compactly bound amid decayed trees, boulders, and surrounded with an undergrowth of pines, firs and birches, we are presented with a growth, not exceeding an acre, of the most magnificent flowering shrubs that ever graced the earth. Springing from a sphagnous soil, evidently of granitic origin, covered with a thick, black vegetable mould,—the Rose Bay here attains the height of nearly 25 feet with a diameter of 3 to 5 inches, although there are an infinity of smaller size. The stems are much crooked, covered with a grayish colored, considerably cracked and broken bark,—in the younger ones, smooth. The leaves grow in tufts from the ends of the branches, when beginning to unfold themselves, they are rose colored and covered with a red down; when fully expanded they are smooth, five or six inches long, of an elongated—oval form—and of a thick, leathery texture. They are on round and somewhat fleshy petioles, evergreen, and are partially renewed once in three or four years. The flowers come forth in the month of June and July, forming terminal clusters immediately above the leaves, which are commonly rose colored, with yellow dots on the inside and sometimes they are perfectly white. They are about one inch in length, their calyxes and stalks, which are covered with a glutinous pubescence. Calyx small, of five unequal divisions. Corol divided into five large, unequal segments, which are usually white shaded with lake. Several varieties of this species occur in different places throughout the United States, but here there are no dissimilar flowers with the exception of a change of color, peculiar to the genus. Several attempts have been made to introduce this superb plant into our door yards, but thus far every trial has failed. The Hon. Josiah Pierce, of Gorham, and Prof. Cleveland, of Brunswick, have removed specimens with a sufficiency of the natural soil, but have been so unsuccessful as to be almost unaccountable. In the Middle States I have noticed it growing luxuriously in a dry and to all appearance a barren soil. My opinion is, that although every opportunity afforded as regards naturalness of soil and situation, there is a vitality possessed by this plant not dissimilar to some fit and other evergreens, which unless furnished with the utmost skill, most frequently defeat the design of the cultivator; and besides the slight bruising in transplanting and other causes not incident to

the natural place of growth as extreme cold, high winds and the depredations of animals, all combine to discourage the undertaking. The seeds of this plant are extremely minute, and are contained in capsules that open in autumn, for their escape and consequently can be easily procured. A few of these thrown into proper soil, prepared in a suitable manner for them, I am confident will reproduce the plant, because it is the most direct and general way of raising trees and plants, and because they vegetate the soonest, neither requiring staking nor watering, which are indeed too very considerate articles and finally because it is in accordance with the design of nature.

Dr. A. P. Hale has just informed me of another locality occurring at Cherryfield in the eastern part of the State, from specimens shown him by a gentleman from that quarter. Altho' he was presented, only for examination, with a few leaves, yet from the account which his informant gave, he thinks he cannot be mistaken. Should this article meet the observation of any one acquainted with the plant or locality in which the plant described is supposed to grow, he will confer a great favor by writing or sending a specimen to the writer.

**Vir. rodou, rose, and dendron, tree, because its flowers resemble roses.*

LEDUM* LATIFOLIUM. Ait. Labrador Tea. A singular but beautiful little evergreen shrub growing in sphagnous swamps. The stem is irregularly branched; the branches woolly, leaves on short, woolly petioles, lanceolate, strongly revolute at the sides, smooth above, covered with thick reddish wool underneath. Flowers white in terminal bunches, with slender stalks. Petals five, oblong, obtuse. Stamens from five to ten, as long as the petals. Bigelow says the leaves are asstringent and are said to have been substituted for tea. *L. palustre*, var. *latifolium* Mich. Very common in the swamps at Brunswick. Bangor near Hawthorn's meadow. Paris, Miss Haulin, June and July.

**Lat. lodo, to hurt, from supposed qualities.*

Polygala.

POLYGALA* POLYGAMA. Walt. Bitter Polygala. A beautiful little plant growing in open sandy fields and thinly scattered forests. Stems numerous, simple, erect and little procumbent, rarely exceeding eight inches in height and most generally found in collected lumps, many stems proceeding from a single root. Leaves linear-lanceolate, pointed attenuate downwards numerous and alternate, about three-quarters of an inch in length. Flowers in filiform and somewhat nodding racemes, terminal lateral, and close attached; purple colored, short crested. Corol small, closed, of three segments, the middle one largest and crested by the divisions of its sides and extremity. From the base of the stems proceed a number of prostrate shoots situated upon, and sometimes nearly under the ground, bearing a row of incomplete, fertile flowers. The whole plant is bitter and sometimes used as a medicine. Mount Hope. Very common at Gorham. July. *P. rubella* Willd. Parsh.

We are indebted to Col. J. W. Richardson of Winslow & Co's Express for a generous file of New York and Boston papers about a dozen hours in advance of the mail.

The morals of Boston have a down hill tendency, as we judge from the fact that the editor of the Mail drinks claret.

The western mail has recently arrived in excellent season. Col. Stanly, may you live a thousand years and your shadow never be less.

VALENTINE'S

PATENT WATER WHEELS. FRANKLIN MUZZY & CO have been appointed Agents for the manufacture and sale of Valentine's Patent Cast Iron Reaction and Tub Water Wheels, and would give notice that they are prepared to furnish them to order, and also any other Castings and Machinery that may be wanted therewith, at their STEAM IRON WORKS in Bangor.

July 12, 1843.

PATENT MILL WHEELS.

THE Subscriber having for a long time given his attention to the construction and operation of Water Wheels, has finally succeeded in the invention of two kinds of Wheels for which he has received Letters Patent from the Government of the United States.

These Wheels are simple in their construction, cheap and durable, are easily put in operation, and are not liable like most other wheels to get out of order, they are not obstructed by back water, when the head is not diminished thereby; and the same power and speed is obtained, with about one half the quantity of water usually applied to wheels now in general use.

A great number of these Wheels are now in operation and give in all cases entire satisfaction; and for further information respecting them the following gentlemen are referred to, all of whom have some of said wheels in operation: Jacob Drummond, James B. Fiske, Amos Davis and Leonard March, Esqrs. Messrs. Fiske & Norcross, Foster & Gilman, S. P. & H. Strickland, W. T. & L. Peirce & Co. Bangor; Hon. J. S. Little, Portland; Hon. John Otis, Hallowell; F. A. Butman, Esquire, Dixmont; Robert Treat, Geo. A. Peirce, Esquire, Frankfort; Daniel Dennett, Esq. Milo; Col. Henry Orne, Milton; Messrs. Fiske & Bridge, Milford; J. Wadleigh, Esq. Oldtown; Capt. R. Fittz, Dedham; John Black and John M. Hale, Esqrs. Ellsworth; Messrs. A. Campbell & Co. Cherryfield; Daniel Harwood, Esq. Machias; Levi L. Lowell, Calais.

The above wheels are manufactured and for sale at the Iron Foundries of Messrs. HINCKLEY & EGERY and FRANKLIN MUZZY & Co. in the city, who are furnished with a great variety of patterns, so that Wheels of any particular description, or adapted to any given head of water, can be furnished at short notice. They are also authorized to dispose of the Patent Right for the same.

WRIGHT'S
INDIAN VEGETABLE PILLS
Of the North American College of Health.
NATURAL PRINCIPLES. It is written in the
book of nature and common sense, that the
natural vegetable productions of every country are,
if properly applied, amply sufficient for the cure of
every malady incident to that climate.
WRIGHT'S INDIAN VEGETABLE PILLS
are composed of plants which grow spontaneously
on our own soil, and are therefore better adapted
to our constitutions than medicines concocted from
foreign drugs, however well they may be compounded;
and as they are founded upon the principle
that the human body is in truth subject to
ONLY ONE DISEASE,
viz., Corrupt Humors, or in other words, Impurity,
and cure every form of this one disease, on natural
principles, that is, by Cleansing and Purifying the
Body, it must be plain to every reflecting mind that a
perseverance in the use of the medicine, according
to directions, will be absolutely certain to drive
every malady from the body.
When we wish to restore a swamp or morass to
fertility, do we not drain it of the superabundant
water? In like manner, if we would restore the
body to health, we must cleanse it of impurity.
WRIGHT'S INDIAN VEGETABLE PILLS
will be found a delightful medicine for carrying out
this grand purifying principle, because they expel
all morbid and corrupt humors, the cause of disease,
in an easy and natural manner; and while they
every day
GIVE EASE AND PLEASURE,
disease of every name is rapidly driven from the
body.

Beware of Counterfeits!
The patrons of Wright's Indian Vegetable Pills
are cautioned against being deceived by medicine
purporting to be Indian Pills, manufactured by one
A. L. Norcross who is traveling about the country,
endeavoring by every artifice to palm off his worthless
trash for the genuine.
It should be remembered that all genuine medicine
has the title expressed in full on the sides of
the boxes thus:
WRIGHT'S INDIAN VEGETABLE PILLS
(INDIAN PURGATIVE.)
Of the North American College of Health.
And that all Traveling Agents are provided with a
Certificate of Agency, signed by William Wright,
Vice President of the N. A. Coll. of Health. All
travelers, therefore, who offer Indian Pills for sale,
and cannot show a certificate of Agency, as above
described, will be known as wicked impostors.
Purchasers will further remember that the counter-
feits in the hope of evading the law, have
omitted the name of "Wright," and substituted
some word in its place; that the medicine must
have "WRIGHT'S INDIAN VEGETABLE
PILLS" on the sides of the boxes; and that all
with the above omissions are positively spurious.
And also, under the border of the label, will be
found in small type: "Entered according to the Act
of Congress in the year 1840, by Wm. Wright in
the Clerk's Office of the District Court of the Eastern
District of Pennsylvania."
It will further be observed that the printed di-
rections for using the medicine, which accompanies
each box, are also entered according to Act of Con-
gress; and the same form will be found at the bot-
tom of the first page.
The public will also remember, that all who sell
genuine Indian Vegetable Pills are provided with
a certificate of Agency, signed by
WILLIAM WRIGHT, VICE PRESIDENT
Of the North American College of Health.
Thus it will be seen, that a trifling attention on
the part of the purchaser to the above particulars,
will put an effectual stop to this wholesale robbery,
and drive, it is hoped, all depredators upon society
to an honest calling.
The following highly respectable persons have
been appointed Agents for the sale of the above in
valuable medicine.

FORECLOSURE OF MORTGAGE.
THOMAS M. STEVENS, by his deed bearing
date Nov. 19, 1839, conveyed in mortgage, to
MART GARDNER a certain piece of land situate in
Exeter, in the county of Penobscot, being the south
west part of lot numbered ten in the fifth range of
lots in said Exeter, as by his deed thereof recorded
in Vol. 111, page 478 of Penobscot Registry will
appear, which mortgage was assigned to me by
Mary Gardiner on the 1st Nov. 1842; and the con-
dition thereof having been and still remaining broken,
I, by reason thereof claim a foreclosure of
said mortgage.

LOZENGES! LOZENGES!
FALES'S Cough, Worm, Headache, and Diar-
rhea or Dysentery LOZENGES are safe, cer-
tain and agreeable remedies for the diseases for
which they are recommended.
Numerous, speedy and surprising cures have been
effected by their use, hence their popularity.
Dyott's Oracle of Health, (Philadelphia) says
that Fales's Medicated Lozenges are considered by
those who have used them, to be far superior to
Sherman's or any other introduced into that market.
THE COUGH LOZENGES
Are beneficial in all cases of common colds, hoop-
ing cough, asthmatic affections, inflammations of
the throat and lungs; they are also particularly
beneficial for the croup, and a very good substitute
for the celebrated Hive Syrup, Cough Candies,
Quincy Cordials Pulmonary Balsams, &c.
THE WORM LOZENGES
Are a safe and sure remedy for Worms. Two or
three is a dose for very small children, and five or
six for larger ones.
THE DYSENTERY LOZENGES
Are a certain and agreeable remedy for Dysen-
tery, Diarrhea and bowel complaints of children.—
Full directions as to diet and manner of taking
them, accompany each box.
THE HEADACHE OR CAMPHOR
Lozenges are beneficial in cases of nervous head-
ache, in feverish affections of a typhus character.
They are useful in Rheumatism and peripneumony;
also in eruptive diseases, to favor the eruption or
bring it back when it has suddenly receded from
the skin, as it happens in measles and small pox.

FALES'S CYPRIAN HAIR TONIC,
FOR THE GROWTH, PRESERVATION AND RESTO-
RATION OF THE HAIR.
No matter how bald a person may be, a growth
of hair will be produced, and as naturally too, as
the herbage grows on the plain, or the lily in the
valley. This tonic is warranted to cleanse the hair
from Dandruff, and every other accumulating sub-
stance. Is your hair dry and falling off?—the tonic
will moisten and fix it strongly in the head.—Is your
hair thin or your head bald?—the tonic is warrant-
ed to satisfy the largest desires in thickening the
hair in the first case, and covering the Bald Head
with natural hair in the second.
It is composed of those remedial agents that re-
store the skin at once to a sound and healthy con-
dition: when thus restored, you will soon discover on
the head a short, soft, and beautiful growth of
young hair gradually increasing in length, till it be-
comes as your other hair was before you began to
lose it.
*The question is often asked, from what is the word
Cyprian? Ans.—from the word Cyprus, the
name of a beautiful island in the Mediterranean Sea.—
The inhabitants of that famed island, are well
known for their fine glossy hair, as for their bright spark-
ling eyes. It is known, however, that many other people,
except those of Cyprus, have used this Tonic un-
til its introduction into the United States.

DR. J. D. BUZZELLI'S
CELEBRATED FAMILY MEDICINES
THESE Medicines are purely Vegetable, and exten-
sively used in various parts of the United States,
British Provinces and the West Indies.
They are particularly intended for the removal of
Chronic diseases, such as habitual or periodical Head-
ache, Catarrh, Consumption of the lungs, various affec-
tions of the stomach, liver, bowels, kidneys, urinary ves-
sels, glands, &c. Dropsy, Rheumatism, Gout, and some
of the preparations, viz: the Bilious Pills, Piles,
Jaundice Mixture, and anti-scurvy preparations. When
generally used, their effect is opening obstructions, re-
moving all morbid and offensive matter from the stomach
and bowels, which he has reason to think is always their
effect in all cases within the control of medicine. They
operate as purgatives in various epidemic diseases, such
as Intermittent, Inflamatory, Bilious, and com-
mon Typhus fevers, Inflammations of the Lungs, Pow-
els, Pleurisy, Cholera, Malaria, Diarrhea, &c.; also as pre-
ventives to miasmatic contagious diseases, such as Yellow
Fever, and Putrid fevers, and although there are some
contagious diseases which they are not capable of pre-
venting, such as small pox, measles, hooping cough, &c.,
yet he, from many years experience, has become con-
fident, that all those who contract any of these diseases,
while under the influence of these medicines, taken
in such doses as to keep up and maintain a healthy action
in the digestive and excretory vessels of the digestive
organs, are but slightly affected, and are easily managed
—whereas, on the contrary, doubtless in many cases,
they would prove not only distressing, but uncontrolla-
ble and dangerous.

Vegetable Bilious Bitters.
Prepared exclusively at his Dispensary in Cape Elizabeth,
near Portland, Me. These Bitters are particularly
valuable in cases of obstruction of the stomach
and bowels, and in chronic affections of the stomach
and bowels, and in miasmatic diseases, and are
particularly serviceable where there is a loss of appetite.
Vegetable Bilious Pills.
These Pills are intended to remove all Bilious Ob-
structions, regulate the Secretions of the Stomach, Liver,
Bowel and Kidneys, and to restore a healthy action
in the digestive organs, by removing all unhealthy matter
from the elementary canals.
Jaundice Mixture.
This Mixture will be found a speedy and safe cure for
Jaundice, and of singular service in all cases where the
bowels have lost their proper tone, or have become tor-
pid, attended with obstinate obstructions. It is also an
efficacious remedy for bile, and for which the direc-
tions accompanying the medicine are to be strictly ob-
served.
Hemorrhoidal, or Pile Powder.
This medicine may be relied upon to give immediate
relief; and their use persevered in, will effect a certain
cure.
Compound Strengthening Plaster.
A local weakness, or a pain in the chest, stomach,
side, or back, will, in most cases, be removed by the ap-
plication of this plaster to the part affected.
Onment for the Cure of Cutaneous Eruptions.
A few sparing applications of this ointment, morning
and evening, will be found a safe and efficacious remedy
in all eruptions of the face, with which children are so often afflicted,
and even in cases of scald head, a loathsome affection
of the head, in which state it is covered with a continu-
ous scurf, in a safe application, effecting a cure. It
will generally cure that troublesome and truly perplex-
ing humor, called by many the Barber's or Jackson itch;
obsturing in all cases, to take the ANTI-EUPHATIC
and COOLING POWDER, according to its accompanying
directions.

Cough Mixture.
A remedy for all coughs proceeding from colds, asth-
ma, chronic catarrhs, consumption, influenza, and in-
flammation of the lungs or pleura. It is also found
very useful in ameliorating the violence of hooping
cough.
For a more full and particular description of disease,
and the medicine to be applied, I beg leave to refer you
to my Circular, in pamphlet form, which may be found
wherever the medicines are for sale, and which the remarks
accompanying them.

LIN'S CELESTIAL BALM
OF CHINA.
Statements honest, plain and true. Will
you believe and profit by them, or neg-
lect and suffer.
THIS Balm or Salve will be found unlike any
other preparation. There is no Fiction or Im-
agination in its qualities. It will cure any sore that
can be cured at all. It will take out any inflammation,
and take down swellings; and by thorough friction
over the part externally, will by counter irritation,
remove inward soreness to the surface.
A YOUNG WOMAN, for years afflicted with
a running sore, called a fever sore, cured by the use
of this Balm in about three weeks.
A CHILD, with great hoarseness and difficult
breathing, relieved and cured by rubbing it well on
the chest and stomach, and covering a flannel with
the Balm and laying it over the breast.
A JUDGE of one of our courts had piles several
months without knowing the name of his complaint;
he used one flask of this Balm and was cured.
A GENTLEMAN who had an attack of piles
every year regularly for ten years, cured himself
five years since by this Balm, and though plainly
threatened at least fifty times since, has kept off an
attack by rubbing on the Balm when any uneasiness,
soreness, or fullness is felt about the parts.
A PRISONER caught a frightful gash in his foot
with a piece of broken glass; he was cured in a few
days by the Balm. The same bottle cured all the
sore fingers, legs and feet in the prison.
AT THE ASYLUM for Aged and Indigent Fe-
males, it has been used with signal success. One
of the lady patronesses, Mrs. Nixon, has left her
name, and wished sufferers referred to these facts.
NO MAN OR WOMAN can possibly have the
PILES if they use this Balm well when they feel
any uneasiness about the parts. It is far better to
prevent than cure any calamity or ailment.
DIRECTIONS, &c. FOR ITS USE.
FOR THE PILES. If the parts are very sore,
reduce a little of the Balm by mixing half lard with
it. After one or two trials that way, you must use
it without reducing it. You never can use too much
at a time—if a whole bottle could be absorbed in
two applications, by long friction, it would be all the
better.
IF COSTIVE, use it well before going to stool
this will do wonders.
TO PREVENT any attack of the Piles, you
must use it whenever you feel a fullness of the parts,
and an attack will be impossible. Hundreds thus
keep off this dreadful complaint entirely.

INTERNAL PILES
May be reached by injecting it with a syringe,
with a large open point to it. This syringe, made
expressly for injecting this, and the Dalley's salve,
or Hays's liniment, may be found with those who
sell these articles. See drawing. Or in some cases
may be reached by passing the finger, or covered
with a piece of silk smeared with the Liniment.
PROJECTING PILES.
That won't return at all, may be reduced by
white lead, ground in oil, and put on over-night, say
a spoonful from a point-shop.
VERY COLD WATER should be applied by
washing the parts with after stools, particularly if
just before bed-time.
In every old case of Piles, when there is apparently
a deposit and discharge from the parts, or when
the parts are very sore or inflamed, use "DAL-
LEY'S PAIN EXTRACTOR" alternately with
the "CELESTIAL BALM," and your cure is
certain. Use these things.

Hoarseness, etc.
DIFFICULT BREATHING. Spread it on
linen or flannel, and lay it on the breast, after
having rubbed the breast well with it—the relief
will be felt directly. So with Coughs, and espe-
cially with Hoarseness, or Sore Throat—rub till the
skin becomes tender, then spread it on flannel, and
bind it on, and you may depend it will cure you. If
you do not believe it now, you will when you have
once tried it.
Rheumatism.
RHEUMATISM, and all pain in the joints, and
stiffness, must be cured by it by rubbing the parts
until the skin becomes tender, and then binding
more on well with flannel.

gists, 71 Maiden Lane, New York.

SANDS' SARSAPARILLA.
FOR THE REMOVAL AND PERMANENT
CURE OF ALL DISEASES ARISING
FROM AN IMPURE STATE OF
THE BLOOD, OR HABIT
OF THE SYSTEM,
NAMESLY:
Scrofula, or Cutaneous eruptions, pimples,
or pustules on the face, blotches,
bites, chronic sore eyes, ring worm
or tetter, scald head, enlargement
and pain of the bones and joints, stub-
born ulcers, syphilitic symptoms,
sciatica, or lumbago, and diseases
arising from an injudicious use of the
mercury, ascites, or dropsy, exop-
sure or immoderate in life. Also,
chronic constitutional disorders will
be removed by this preparation.

The proprietors submit to the public the follow-
ing certificate, from a highly respectable source,
of a cure made by using their preparation of Sarsapa-
rilla, which cannot but have the effect of placing
beyond all doubt the curative powers of the medi-
cine.
NEW YORK, August 3, 1842.
"Messrs. Sands—Gentlemen: Under a feeling
sense of gratitude inherent to us all when suddenly
relieved from suffering and disease, I now, as an act
of justice due to you, and with a view of relieving
the afflicted, make known to the world the in-
estimable benefit I have received from the use of your
Sarsaparilla. In the year 1832 I sailed from Eng-
land in a vessel bound for Quebec, and while on the
passage first discovered the disease which after-
wards proved to be a sore affliction; and truly I can say,
from the crown of my head to the sole of my foot
there was no soundness in me." From the time first
mentioned down until the present, a period of more
than ten years, I have suffered all that human na-
ture was capable of bearing. I have been under
the care of the most distinguished physicians both
in this country and in England, visited Bath, Cleve-
land, Bristol and Gloucester, tried various spe-
cifics, among others a large quantity of Sarsapa-
rilla, used sulphur baths, &c. As a last resource
I was induced to wrap myself in a tar ointment,
keeping myself secluded, shunned by all, myself al-
most hopeless.
In August last, by the advice of friends, I went
to the New York City Hospital, but was there told
that my case was incurable. The disease now de-
veloped my whole body, rendering me almost help-
less; the skin thickened and cracked, and blood
mutter ran, and life itself became almost a burden.
A few weeks since I was induced to use your Sar-
saparilla by hearing it so highly recommended, and
spent nearly \$3,000 without obtaining but little
relief. After using it a short time, I found myself
better, and now, by using six or eight bottles, feel-
ing less than ten dollars, I am well. Yes, I can
truly and declare to the world, that after spending
near \$3,000 in traveling and doctoring, and suffering
more than can be told, I was perfectly cured
by using your invaluable preparation of Sarsapa-
rilla; and I now recommend it to all similarly afflicted.
Those wishing to know further particulars will find
me at my residence, No. 27 Warren street, New
York, where I shall be happy to communicate any
thing in relation to the above cure.

Prepared and sold by A. B. SANDS & CO. Drug-
gists and Chemists, Granite Buildings, 273 Brook-
way, corner of Chambers street, New York. And
for sale by Druggists throughout the United States.
Price \$1 per bottle, six bottles for \$5.
The public are respectfully requested to remem-
ber that it is Sands' Sarsaparilla that has and is
constantly achieving such remarkable cures of the
most difficult class of diseases to which the human
frame is subject, and ask for Sands' Sarsaparilla,
and take no other.

will be supplied very low by the dozen.

HIGHLY ESTEEMED MEDICINES.
FOSTER'S EGYPTIAN BALM OF LIFE.
OR NATURE'S GRAND AND ORIGINAL AUXILIARY.
A SPECIFIC for Consumption, Great Asthma, Cough,
Old and Acute Ruptured Cough, Flatulency, Indiges-
tion and Bilious Disorders, Catarrhes and Diarrhea,
Scrofula and Scrofulous Affections and Female Com-
plaints.
The Egyptian Balm of Life being an invaluable Family
Medicine, should not be neglected in the Spring and
Fall by any member of a family, as a Grand Auxiliary
to the efforts of nature, in throwing off superfluous
matter, generated in the winter and summer months; its
preventing as well as otherwise curing the above dis-
eases, and giving a healthy tone and propen-
sion to all the grand operations of the system.
This Medicine has long sustained an unrivaled cele-
brity for excellence in the private practice of some
eminent practitioners in Europe, yet remaining at the
same time undiluted in the possession of the individ-
ual of whom it has been purchased.
It is now exerting a salutary influence on this side of
the Atlantic, and it is recommended to those who
be laboring under any of the aforesaid or which it is
designed as a specific, and also as a preventive of disease,
as its first appearance.
For a more particular description of the above medi-
cine, see the envelope accompanying each bottle.
Many valuable certificates might be produced of the
benefit received therefrom. Hundreds in the State
Maine, as well as in other States, can testify to its
powerful effects, and the proprietor is willing for the
public to judge for themselves by trial. A few names, how-
ever, are referred to in the envelope accompanying each
bottle.
Foster's Celebrated Nerve Ointment.
For the cure of Sprains, Bruises, Croup, Rheum-
atism, Contracted Muscles, Sore Throat, Stiff Neck,
Pain in the Breast, Back or Joints, Throat Distemper,
the Piles, &c.
The general testimony concerning this Ointment, from
those who have proved its merits, is, that it is too
valuable a medicine to be neglected. And indeed we might
fill a book of an hundred pages in giving incidents of its
happy effects on the suffering.
N. B. The above Medicines are prepared only by W.
A. Greenough, Portsmouth, N. H., and sold wholesale
and retail by him.
Also, sold wholesale and retail by G. W. LADD, Ban-
gor; sold also by E. C. Rigby & J. Knowlton, New
